

Abraham Joys

Address: 39 Queens Road, Slough, SL1 3QW

Phone number: 07551199833, Email address: aj248@student.le.ac.uk

PERSONAL PROFILE

During my degree I have been described by my peers as a hardworking individual. This stems from the fact that I am currently: running a few app projects, juggling my course rep duties, and maintained a 74% in year 2. With Mathematics and Computer Science being my main interests, I have learnt how to think critically and analytically, to solve problems in a creative manner and how to get complex tasks done efficiently. I am willing to take any training necessary to learn new skills and better myself.

TECHNICAL SKILLS

- Fluent in using: **Java, Python, Haskell, Angular, Java Script, HTML, CSS, SQL, Spring, and Visual Basic**
- Git Data Structures
- Excellent IT Skills in Word, Excel, PowerPoint, and Outlook

- Fast-paced work environment while maintaining high standards of customer service during high volume
- Learning on the spot, whilst working and maintaining the standards required

VOLUNTEERING

April 2013 – 2016 Young Adult Centre, Part Time Tutor

- Taught mathematics to pupils aged between 7 and 12
- Gained experience communicating my thoughts and ideas in a concise yet informative manner
- Helped develop my leadership skills as I oversaw a whole class of students

POSITIONS OF RESPONSIBILITY

October 2014 – September 2016 **Created and hosted Game Development Club in school**

- Trained younger students into developing their own games through Java Script and Visual Basics
- This has also developed my leadership skills to a considerable degree.

July 2015 ***Project Manager for A development team hosted by Headstart in Aston University***

- Guided and managed my team into creating an educational game using JAVA script
- Responsible for my team completing the project in time, and overseeing everyone's code

September 2016 – Present ***University of Leicester Course Representative***

- Responsible for collecting and portraying feedback to university lectures, to help improve education process
- Bridging the gap between the lecturers and the students, essentially representing the students.

KEY SKILLS

Fast Learner

- During Work Experience, had to adapt to using the company database, which I had no previous experience in

Ability to Work Under Pressure

- During my employment in McDonalds, I had to work in a very fast paced environment in busy rush-hours, while maintaining the standards of the business
- Was responsible for my team in Headstart and we had a 2 day deadline to complete an entire project from scratch

QUALIFICATIONS & AWARDS

- **NCS Team Leader Award:** during my National Citizen service was awarded as the Natural team leader of our batch, which allowed me to practice leadership and managerial skills
- **Leicester Award:** helped me to outline my own strengths and weaknesses, and gave me the opportunity to discover new skills, new experiences
- **Arts awards:** improved my skills in leadership skills as I was team leader for other students to help them achieve their Arts Award

INTERESTS

- Game Programming and Game Design
- Learning new programming languages and programming independent side projects for fun
- Martial Arts. Obtained a blackbelt in Taekwondo, in this discipline I learnt to preserve more in the tasks I am aiming for
